

VPAT™

Voluntary Product Accessibility Template®

Version 1.3

The purpose of the Voluntary Product Accessibility Template, or VPAT, is to assist Federal contracting officials and other buyers in making preliminary assessments regarding the availability of commercial "Electronic and Information Technology" products and services with features that support accessibility. It is assumed and recommended that offerers will provide additional contact information to facilitate more detailed inquiries.

The first table of the Template provides a summary view of the section 508 Standards. The subsequent tables provide more detailed views of each subsection. There are three columns in each table. Column one of the Summary Table describes the subsections of subparts B and C of the Standards. The second column describes the supporting features of the product or refers you to the corresponding detailed table, "e.g., equivalent facilitation." The third column contains any additional remarks and explanations regarding the product. In the subsequent tables, the first column contains the lettered paragraphs of the subsections. The second column describes the supporting features of the product with regard to that paragraph. The third column contains any additional remarks and explanations regarding the product.

Date: December 2, 2009

Name of Product: Orgwide Services Proprietary Learning Management System

Company contact for more information: David Kinard, Business Development Executive, 901-219-9917.

Summary Table
VPAT™
Voluntary Product Accessibility Template®

Criteria	Supporting Features	Remarks and explanations

Section 1194.41 Information, Documentation and Support	Not applicable	

Section 1194.22 Web-based Internet information and applications – Detail
VPAT™
Voluntary Product Accessibility Template®

Criteria	Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	The Orgwide Services learning platform, application and products are supported by Microsoft and Adobe tools that meet this requirement.	
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Orgwide Services will provide printable content equivalent to multimedia content as part of any deliverable.	
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Platform, application and product currently meet this requirement.	
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	The Orgwide Services learning platform, application and products do not require style sheets..	
(e) Redundant text links shall be provided for each active region of a server-side image map.	Orgwide Services will provide text links for content in active regions of multimedia content as part of any deliverable.	

Criteria	Supporting Features	Remarks and explanations
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Orgwide Services will seek to always use client side image maps in any deliverable.	
(g) Row and column headers shall be identified for data tables.	The Orgwide Services learning platform, application and products are supported by Microsoft and Adobe tools that meet this requirement.	
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	The Orgwide Services learning platform, application and products are supported by Microsoft and Adobe tools that meet this requirement.	
(i) Frames shall be titled with text that facilitates frame identification and navigation	Not applicable	The Orgwide Services learning platform does not utilize frames.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	The Orgwide Services learning platform, application and products meet this requirement.	
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Orgwide Services will commit to providing text-only pages when applicable.	

Criteria	Supporting Features	Remarks and explanations
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Not applicable	The Orgwide Services learning platform does not utilize frames.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21 (a) through (l).	Orgwide Services will commit to providing links to plug-ins as applicable.	
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Orgwide Services will commit to design electronic forms aligned with Assistive Technology.	
(o) A method shall be provided that permits users to skip repetitive navigation links.	The Orgwide Services learning platform, application and products provide a slide show feature that minimizes repetitive navigation.	
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not applicable	The Orgwide Services learning platform, application and products do not require timed responses.

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.
